

# Mandatory Laptop Requirement

Due to the need to access vital network information and systems, the College of Medicine requires all entering medical students own a laptop computer that is in good working order and maintained with the latest software and anti-virus updates.

You will need to use your laptop to complete these assignments:

- Note taking
- Giving in-class presentations
- Watching streaming videos
- Communicating with others
- Accessing applications

*Please visit the University of Florida [student computing requirements](#) page for additional information.*
